

SPIRITUAL ITINERARIES for July 16 and 17. PRACTICAL INFORMATION.

The visits are organized by groups; each group is assigned a specific itinerary that will take place on the afternoons of July 16 or 17. **The letter of the group and the date of your visit slot are indicated on each participant's badge.**

On the Gathering's APP, the day before the itinerary, information sheets describing the places to be visited and the text of the prayer will be uploaded; participants are invited to download this material according to their assigned visit group, in order to have in advance information about the route to take, the means of transport to use, and the site to visit. At the visit sites, explanations in the participants' language are provided by the site representatives.

On the scheduled day of the visit, at the end of the mass, people belonging to the groups that will make the visit will be invited to stand up first, go to collect the lunch bag, eat, and quickly head outside the INALPI Arena, where they will find volunteers who will give directions to reach the means of transport that will take participants to the visit sites; for routes in the city, public transport will be used, for routes outside the city, they will use the same private buses with which they arrived at the Inalpi Arena.

Itineraries outside the city (Colle Don Bosco / Chieri): at the arrival point, participants will be greeted by volunteers, who will give the necessary instructions for the visit. At the end of the visit, participants will return to the hotel with the same buses. To ensure return at the established times, maximum punctuality is required when presenting oneself at the arrival square to take the bus that will take participants back to the Hotel.

City itineraries: participants must get off at the public transport stops indicated on the maps in the APP and in the table below; here they will find volunteers to welcome them and accompany them to the visit site. To facilitate the management of flows and the identification of participants assigned to different routes, groups G/H/J/R/S/T will be identified with bracelets of different colors. At the end of the visit, participants must return to the hotel by public transport; the indications on the means of transport to be used for the return have already been sent via email to each of the participants, will be available on the APP and will also be given by volunteers.

Remember to bring with you the umbrella and cap that you will find in the participant's kit, some 50 cent coins to access the toilets and a bottle of water.

Remember that for more information on the life and places of Don Bosco, you can consult the gathering's website on the page insights/spiritual itineraries.

The table below details the groups identified by their respective letters, and for each group the assigned day for the visit, the itinerary (place of visit), and the means of transport to use.

Group	Day	Itinerary	Language	Means of trasport	Disembarkation stop
A	tue 16	Colle don Bosco 1	PT	Private Bus	//
